Australian Private Networks Public WiFi

WiFi Internet Access for Everyone

Public WiFi Access

Outdoor WiFi

Easy To Use

APN's Public WiFi solution provides the ability for any person to be connected without compromising Business or Private data. As an independent and segregated network the Public WiFi has its own data allocation.

Proprietary developed for Remote and Rural Australia. It is fully configurable to enable users free internet access or the ability to purchase data for internet access. Users can purchase data through an online portal with all administration completed by APN. Additionally if Merchant is available you can purchase Data Pin through the Merchant.

Highlights

Suited for – Any Business such as, tourism, caravan parks, camps, B&B, Agriculture, Mining Camps or Communities and Towns looking to provide Public WiFi to visitors, staff or the public

WiFi Access – Connecting to the Public WiFi is via a hotspot, public WiFi network.

Data Access - Open Access – Business pays for the amount of data expected to be used, via Data Plan and provides users internet access to this data limit

Data Access - Limited Data Pin Access – Business pays for the amount of data expected to be used via Data Plan. Then you can select how the data is distributed through selecting data pin size and how many can be used by a person (device).

Data Access - Pre-paid/Pay As You Go – User pays for all data used and is purchased through APN Online Portal, with credit card or Visa/Mastercard debit card or at a Merchant

Commission – Business or Merchant can earn commission based on Data Pins sales generated

Merchant Service (Optional) – Ability for Merchant through APN Merchant Portal to sell Data Pins to visitors, staff and public using cash or EFTPOS as payment

Australian Private Networks (APN) is Australian owned and operated with over 16 years remote, rural and regional installation experience.

Designed with

- Remote and Rural Australia in mind
- Coverage based on APN Hub solution and/or APN Extended Wireless installed
- APN manages all administration
- No installation just configuration at time of setup by APN

Compatible with APN Business Solutions:

- APN Business Hub
- APN Commercial Hub
